

Continuing Professional Development Certificate

Cyber & Technology: Issues you should be thinking about

Date: Wednesday, 8 November 2017

Time: 1.15pm - 2.00pm

Speaker:

Sir John Scarlett KCMG OBE

Former Chief of the British Secret Intelligence Services (MI6)

In this IIL lecture Sir John Scarlett offered his views on what were the main Cyber & Technology issues insurers should be thinking about. He began by looking at the cost of cyber crime in contrast to the cyber insurance premiums and then looked at the threat using recent cases as examples. Sir John then considered where the threat may be coming from before concluding on who may be at risk. In the lecture, Sir John covered cyber security developments - state, criminal, other threats, including terrorism. He also looked at the threats to city infrastructure and difficulty of data management.

By the end of this lecture, members would have gained an insight into:

- Global security developments
- Cyber security developments
- Threat from terrorism
- Threats to city infrastructure, difficulty of data management.

This lecture or podcast can be included as part of your CPD requirement should you consider it relevant to your professional development needs. It is recommended that you keep any evidence of the CPD activity you have completed and upload copies to the recording tool as the CII may ask to see this if your record is selected for review.
