

# Continuing Professional Development Certificate

## Five seconds to impact - UK aviation near miss (Airprox) reporting

**Date:** Tuesday 06 March 2018

**Time:** 1.15pm - 2.00pm

**Speaker:** Air Cdre (Retd) Steve Forward, Director, Airprox Board

In this IIL lecture Steve Forward talked about UK aviation near miss reporting, how Airprox occurrences are near accidents and the role of the UK Airprox Board (UKAB) in investigating these. Steve explained how UKAB was the UK's focal point for investigating and reporting the circumstances, causes and risk of collision for all Airprox occurrences in UK airspace. Focused purely on enhancing Air Safety through the avoidance of airborne conflict and mid-air collisions, the UKAB provided a mechanism for the feedback and follow-up of Airprox-related insights and recommendations regarding the efficacy of airspace regulation and the factors that have influenced the performance of pilots and controllers.

**By the end of this lecture, members would have gained an insight into:**

- A brief overview of Airprox reporting
- Some Airprox statistics and trends
- Airprox causal themes
- Airprox Risk & Safety management

This lecture or podcast can be included as part of your CPD requirement should you consider it relevant to your professional development needs. It is recommended that you keep any evidence of the CPD activity you have completed and upload copies to the recording tool as the CII may ask to see this if your record is selected for review.
