

Providing **Business Intelligence, Crisis Management & Cyber Security** services globally.

Combined with our technology solutions, we enable clients to identify and mitigate risks ranging from security, political change and cybercrime to money laundering, fraud and corruption. With a focus on quality and responsiveness, we work closely with businesses, private clients, and governments to protect their assets, people, reputation, information and brand.

How we can help you manage risk in your world

BUSINESS INTELLIGENCE

We investigate companies and individuals on behalf of clients worldwide.

CRISIS MANAGEMENT

We help you prevent, prepare for, and respond to crises.

CYBER SECURITY

We advise companies and individuals to ensure their data and assets are protected.

We have experience across multiple sectors and industries

BUSINESS INTELLIGENCE

We investigate companies and individuals on behalf of clients worldwide.

HOW WE CAN HELP YOU

We work with clients throughout their organisation, from executives and board members through to compliance professionals, investment teams, and legal counsel.

COMPLIANCE DUE DILIGENCE

We help clients comply with regulations and protect their reputations:

Integrity Due Diligence: anti-bribery and corruption (ABC) reporting on suppliers, distributors and other third parties.

Enhanced Due Diligence: anti-money laundering (AML) analysis of higher-risk customers.

Background Checks: vetting and screening for appointments and applicants.

PRE-TRANSACTIONAL DUE DILIGENCE

Our teams provide critical intelligence to support key transactions and deals. Our investigations support due diligence prior to mergers and acquisitions (M&A), joint ventures, public offerings, and private equity investments.

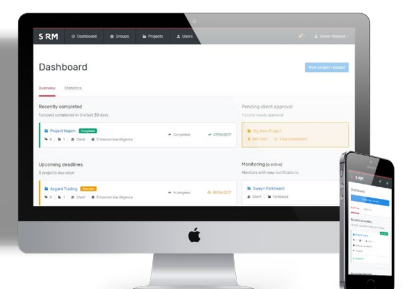

DISPUTE & LITIGATION SUPPORT

Our team assists clients involved in litigation, disputes and internal investigations. We provide investigative support, often in parallel with legal proceedings, to locate, identify and assess critical information outside of clients' records and disclosure. We regularly undertake asset tracing engagements for our clients in contemplation of litigation or at the enforcement stage.

Technology sits at the heart of our business. From big data analytics by project teams to intelligence platforms for clients, we lead our industry in developing innovative tech services and products.

CRISIS MANAGEMENT

We help you prevent, prepare for, and respond to crises.

HOW WE CAN HELP YOU

Prevention: We help you implement measures that eliminate crises and business interruption

Preparation: We develop plans and procedures that prepare you for when a crisis occurs

Response: When you have a crisis, we will help you minimise disruption and safeguard your reputation

GLOBAL SECURITY INSIGHT

Learn more about global security risks

S-RM's GSI is the simplest way to get a fresh perspective on the security risks affecting you, your work, and your travel.

CYBER SECURITY

We work with our clients to secure their data and systems.

HOW WE CAN HELP YOU

Our assessments and expert advice enable our clients to pre-empt and respond to changing cyber security threats by assessing their people, processes and technology.

ASSESSMENTS

We provide actionable recommendations and roadmaps to reduce our clients' cyber risks and align them with leading governance standards.

Security

We provide security risk assessment services to businesses of all sizes, ranging from small family offices to large corporations. We serve a wide variety of industries, some of which include oil and gas, financial services, legal services, professional services and critical national infrastructure.

Regulations & Standards

Our assessment services extend to security and data privacy regulations and security standards, enabling our clients to understand their readiness in preparing for and meeting the requirements associated with:

- » The EU General Data Protection Regulation (GDPR)
- » The New York Department of Financial Services Cyber Security Regulation (NYDFS)
- » ISO27001
- » NIST 800-53/Cyber Security Framework (CSF)

ONGOING SUPPORT

We support clients in driving their remediation programmes and effectively implementing the controls required by regulations and security standards.

Post-Assessment Remediation Support

We provide technical support, security awareness training and staff augmentation to help organisations implement risk mitigation strategies. These services include:

- » Vulnerability scanning & patch management
- » Social engineering testing (Phishing; Vishing)
- » Policy and procedure development
- » Vendor risk management
- » Device hardening
- » Privacy advisory

Regulatory & Compliance Support

We provide the additional resources and knowledge required to implement the changes needed to achieve compliance with security standards and regulations.
