Data protection in the insurance industry, one year on

Date: Thursday 4 April 2019

Time: 1.10pm - 1.55pm

Speakers: Anthony Woolich, Partner & Felicity Burling, Associate, HFW

Anthony Woolich and Felicity Burling recapped the position for organisations in the insurance industry under the relevant General Data Protection Regulation (GDPR) legislation and the Data Protection Act 2018, and flagged data protection issues particularly relevant to the insurance industry nearly one year after implementation.

By the end of this lecture, members would have gained an insight into:

- What has happened since the data protection regime was updated on 25 May 2018, and the approach adopted by the Information Commissioner's Office, the Financial Conduct Authority and the Prudential Regulation Authority so far;
- How to apply the provisions of the GDPR and the UK Data Protection Act 2018 which are of particular interest to the insurance industry;
- What you can do to ensure that your organisation remains compliant.

This lecture or podcast can be included as part of your CPD requirement should you consider it relevant to your professional development needs. It is recommended that you keep any evidence of the CPD activity you have completed and upload copies to the recording tool as the CII may ask to see this if your record is selected for review.
