Learning outcomes or Lecture review

By attending this event, delegates will be able to identify:

- The main technologies utilised in insurance, namely Blockchain and AI
- How existing roles in the market will be enhanced and what new roles may be created by these technologies
- What skills insurance professionals should develop to maximise their value to their organisations as these technologies advance

CII CPD event accredited - demonstrates the quality of an event and that it meets CII member CPD scheme requirements.

This lecture or podcast can be included as part of your CPD requirement should you consider it relevant to your professional development needs. It is recommended that you keep any evidence of the CPD activity you have completed and upload copies to the recording tool as the CII may ask to see this if your record is selected for review.
