Continuing Professional Development Certificate

The biggest threats to cyber security and how to catch them

Date: Wednesday 16 October 2019

Time: 1.10pm - 1.55pm

Speaker: Louise Taggart, Manager, Cyber Threat Intelligence, PwC

In this IIL lecture Louise said that 2019 has continued to be another big year in cyber security: data breaches continue to dominate headlines, hundreds of millions of consumer records compromised. Against this background - as well as increasing regulation - cyber security has become a top concern for CEOs. However, for the uninitiated, the cyber threat landscape can be difficult to navigate.

By the end of this lecture, members would have gained an insight into:

- The motives driving cyber attacks
- How attacks might manifest
- Some of the ways in which these threats can be addressed

This lecture or podcast can be included as part of your CPD requirement should you consider it relevant to your professional development needs. It is recommended that you keep any evidence of the CPD activity you have completed and upload copies to the recording tool as the CII may ask to see this if your record is selected for review.

CII CPD event accredited - demonstrates the quality of an event and that it meets CII member CPD scheme requirements.
