

# CHARLOTTE ACTON

Director

RMS (Capital and Resilience Solutions)

<http://www.rms.com>

<https://uk.linkedin.com/in/charlotte-acton-1b219253>

---

Charlotte is head of the Capital and Resilience Solutions advisory team at RMS and has spent the past 10 years helping public, corporate and financial entities understand their current and future risk, quantify the potential for risk reduction, and transfer risk into the (re)insurance and capital markets. Charlotte leads RMS involvement in the design and risk analysis of catastrophe bonds and other alternative risk transfer mechanisms, including parametric transactions such as MetroCat Re, the first ever storm surge bond. Charlotte has also recently specialized in the applications of catastrophe modelling in quantifying the cost-benefit of resilience and in innovative financing.

Prior to joining RMS, Charlotte worked as an investment analyst at Solent Capital, a credit hedge fund. Charlotte holds an MSci in Natural Sciences from the University of Cambridge where she also completed a PhD in seismology, focusing on the seismic structure of the India-Asia collision zone.
