

FRANKIE SHAW

Engineering Support & H&S Manager AAIB

Frankie Shaw joined the AAIB in 2016 and works in a dual role as the Engineering Support and Health & Safety Manager. He is responsible for all engineering support activities for AAIB investigations, specifically, aeronautical and general engineering, logistical support for air accident response and recovery operations. His role also includes the H&S management of the AAIB HQ facilities in Farnborough, Hampshire and at air accident sites throughout the UK. Frankie is responsible for risk assessing accident sites and the deployment of AAIB teams, managing the interface with loss adjusters for aircraft wreckage, recovery and disposal.

Prior to joining the AAIB, Frankie was a military aircraft engineer for 24 years. His final operational role was as an Aircraft Engineering Investigator with the Defence Accident Investigation Branch.
