The future of power: Are we seeing greater risk from aging and obsolete infrastructure?

Date: Thursday 9 January 2020

Time: 1.10pm - 1.55pm

Speaker: Antony Froggatt, Senior Research Fellow Energy, Environment & Resource Governance, Chatham House

In this IIL Property lecture Antony Froggatt discussed the challenges of managing an aging infrastructure in the power sector in the midst of rapid systematic change.

By the end of this lecture, members would have gained an insight into:

- The current status of UK and global power infrastructure: how it functions and its age
- What will power the electricity system of the future and how it will function differently
- The regulatory and operational challenges during the transformation of the energy sector

This lecture or podcast can be included as part of your CPD requirement should you consider it relevant to your professional development needs. It is recommended that you keep any evidence of the CPD activity you have completed and upload copies to the recording tool as the CII may ask to see this if your record is selected for review.

CII CPD event accredited - demonstrates the quality of an event and that it meets CII member CPD scheme requirements.
