

Continuing Professional Development Certificate

Digital Perils and Risks at Sea

Date: Tuesday 04 February 2020

Time: 1.10pm - 1.55pm

Speaker:

Professor Kevin Jones, Dean of Science & Engineering, University of Plymouth

In this IIL Claims lecture, Professor Jones discussed what affects maritime cyber risks, and the perils they may introduce, and ways the sector needs to evolve its cyber-safety as technology becomes more advanced, relied-upon, and prevalent in the modern world.

By the end of this lecture, members would have gained an insight into:

- How maritime cyber-threats need to be assessed
- How existing risk assessment tools are not fully suited for maritime-cyber specifically
- How a new maritime-cyber risk assessment tool can help identify and mitigate a number of cyber-related threats at sea and at port

This lecture or podcast can be included as part of your CPD requirement should you consider it relevant to your professional development needs. It is recommended that you keep any evidence of the CPD activity you have completed and upload copies to the recording tool as the CII may ask to see this if your record is selected for review.
