

Continuing Professional Development Certificate

Developing scenarios to understand risk

Date: Tuesday 10 March 2020

Time: 1.10pm - 1.55pm

Speakers:

Professor Daniel Ralph, Academic Director and Oliver Carpenter, Research Assistant, of the Centre for Risk Studies, University of Cambridge

In this IIL Reinsurance Lecture, Professor Ralph and Oliver Carpenter talked about risk within a different range of possible future scenarios, and a tool to cope with uncertainty, especially when risks are not well understood, or cannot be quantified or identified.

By the end of this lecture, members would have gained an insight into:

- The definition and types of scenarios
- How can they be used to aid strategy and decision making
- Where to find supportive information to help a practitioner develop scenarios

This lecture or podcast can be included as part of your CPD requirement should you consider it relevant to your professional development needs. It is recommended that you keep any evidence of the CPD activity you have completed and upload copies to the recording tool as the CII may ask to see this if your record is selected for review.
