Casualty catastrophe modelling – why is it relevant and how can it help evaluate risk?

Date: Thursday 08 October 2020

Time: 1.00pm - 2.00pm

Speaker: Robin Wilkinson, Senior Vice President and Managing Director, Casualty Analytics, AIR Worldwide

In this IIL webinar, Robin Wilkinson presented a casualty catastrophe modelling framework and discussed the role of casualty cat models in the (re)insurance marketplace. This webinar was the second in a series of joint catastrophe modelling webinars between the Insurance Institute of London and AIR Worldwide (a Verisk business), aimed at improving members understanding of developments in extreme event modelling and risk evaluation in today's insurance world.

By the end of this webinar, members would have gained an insight into:

- Why is casualty catastrophe modelling needed?
- What does casualty catastrophe modelling involve?
- What questions do casualty catastrophe models try to answer?

CII CPD event accredited - demonstrates the quality of an event and that it meets CII member CPD scheme requirements.

This lecture or podcast can be included as part of your CPD requirement should you consider it relevant to your professional development needs. It is recommended that you keep any evidence of the CPD activity you have completed and upload copies to the recording tool as the CII may ask to see this if your record is selected for review.
