Aviation and climate change - Sustainable Aviation Fuels

Date

Tuesday 27 October 2020

Time

1.00pm - 2.00pm

Speaker

Michael Gill, Director Aviation Environment, International Air Transport Association (IATA)

In this IIL aviation webinar, Michael Gill discussed aviation's long-term strategy to address its climate change impact through a range of emissions reductions initiatives, with a particular focus on the deployment of sustainable aviation fuels on a commercially viable basis.

By the end of this webinar members would have gained an insight into:

- What the aviation industry has done to address its long-term impact on climate change
- How the sector can move towards even more ambitious action to reduce CO2 emissions
- The key role that Sustainable Aviation Fuel will play in helping the industry achieve its targets

CII CPD event accredited - demonstrates the quality of an event and that it meets CII member CPD scheme requirements.

This lecture or podcast can be included as part of your CPD requirement should you consider it relevant to your professional development needs. It is recommended that you keep any evidence of the CPD activity you have completed and upload copies to the recording tool as the CII may ask to see this if your record is selected for review.
