

# Continuing Professional Development Certificate

## Extreme Catastrophe Event Modelling – an introduction to Pandemic Modelling

**Date:** Monday 07 December 2020

**Time:** 1.00pm - 2.00pm

**Speaker:** Doug Fullam, ASA, Director, Life and Health Solutions, AIR Worldwide

This webinar was the fourth in a series of joint catastrophe modelling webinars between the Insurance Institute of London and AIR Worldwide (a Verisk business), aimed at improving members understanding of developments in extreme event modelling and risk evaluation in today's insurance world. In this webinar, Doug Fullam introduced the building blocks of stochastic pandemic models and described how they can be used to better understand COVID-19's effect on the (re)insurance industry.

**By the end of this webinar members would have gained an insight into:**

- What are the main elements of a pandemic model?
- What questions do pandemic models try to answer?
- How are pandemic models being used to better understand the impacts of COVID19?

CII CPD event accredited - demonstrates the quality of an event and that it meets CII member CPD scheme requirements.
