## How to integrate and launch a reliable rocket: Mitsubishi Heavy Industries experience

**Date** Wednesday 17 February 2021

**Time** 09.30 am to 10.30 am

**Speaker** Dr Ko Ogasawara, Vice President & Senior Chief Engineer, Space Systems Division, Mitsubishi Heavy Industries, Ltd

In this IIL aviation webinar, Ko Ogasawara introduced to the audience the relationship between Mitsubishi Heavy Industries' (MHI) global business and the insurance community, then provided an overview of MHI Launch Services, that enabled the audience to learn about Japan's current rocket, H-IIA, the next generation rocket, H3, and the key essence of MHI's quality management that leads to MHI's record of successful, reliable and on-time launches.

By the end of this webinar members would have gained an insight into:

- An overview of MHI Launch Services, including the development status of the H3 Launch Vehicle
- Examples of MHI's quality management for heavy lift launch vehicle system
- How MHI overcame anomalies with its own policy of quality management

CII CPD event accredited - demonstrates the quality of an event and that it meets CII member CPD scheme requirements.

This lecture or podcast can be included as part of your CPD requirement should you consider it relevant to your professional development needs. It is recommended that you keep any evidence of the CPD activity you have completed and upload copies to the recording tool as the CII may ask to see this if your record is selected for review.
