E-scooters and computer assisted vehicles: the implications for insurance

Date Tuesday 30 March 2021

Time 1.00pm - 2.00pm

Speaker Matthew Avery, Director of Insurance Research, Thatcham Research

In this IIL accident webinar, Matthew Avery discussed automated driving which is being introduced on UK roads. As the Government is keen to promote this and other new mobility solutions, this webinar explained what and when this will happen.

By the end of this webinar members would have gained an insight into:

- E-scooters – what do we need to do to make them safe?
- Automation – when will it hit the roads and in what form?
- What does automation mean for UK motor insurers?

CII CPD event accredited - demonstrates the quality of an event and that it meets CII member CPD scheme requirements.

This lecture or podcast can be included as part of your CPD requirement should you consider it relevant to your professional development needs. It is recommended that you keep any evidence of the CPD activity you have completed and upload copies to the recording tool as the CII may ask to see this if your record is selected for review.
