Continuing Professional Development Certificate

Future cyber risks and threats

Date Wednesday 28 April 2021

Time 1.00pm - 2.00pm

Speaker Mark Ward, Senior Research Analyst, Information Security Forum

In this IIL cyber, technology and innovation webinar, Mark Ward acted as a tour guide to the many cyber and technology-based threats that will trouble organisations over the next three years. He looked at developments in artificial intelligence (AI), digital identity, renewable energy and many other topics.

By the end of this webinar, members would have gained an insight into:

- The growing sophistication of organised cyber-criminal gangs
- Greater knowledge about developments in digital ID
- Global regulatory changes affecting information security
