In this IIL accident webinar, we examined how, as the world was on the brink of the COVID-19 global crisis, a group of concerned actuaries, epidemiologists and longevity specialists came together to pool their expertise to create well over 100 bulletins that have helped guide our country's leaders on the measures required to tackle the pandemic.

By the end of this webinar, members would have gained an insight into:

- The rapid response to the pandemic that the group has achieved
- The central philosophies of the group that have enabled its success
- How the group's approach could be used in response to other challenges
