

Continuing Professional Development Certificate

Nuclear Insurance

Date: Wednesday 07 December 2016

Time: 1.15pm - 2.00pm

Speaker:

Mark Tetley, MD, Marine, Energy & Natural Resources International, Price Forbes

In this ILL lecture Mark Tetley provided an introduction to the insurance of nuclear risks. He explained that the aim of his lecture was to cover:

- Why a specialist market exist for nuclear risks (history, statutory obligations, radioactive contamination exclusion, loss history)
- The risks & business covered by the nuclear insurance market (risks & profile, cover offered, underwriting process)
- The current status of the nuclear insurance market (hot topics, who's who in the market)
- A glimpse into the future of nuclear insurance (industry developments, climate post Fukushima & demands on insurers).

By the end of this lecture, members would have gained an insight into:

- A high level view of how the nuclear insurance arrangements work.
- The major issues facing the nuclear insurance market.

This lecture or podcast can be included as part of your CPD requirement should you consider it relevant to your professional development needs. It is recommended that you keep any evidence of the CPD activity you have completed and upload copies to the recording tool as the CII may ask to see this if your record is selected for review.
