Mike Reynolds, Global CEO, JLT Re

In this IIL lecture, Mike Reynolds discussed the 01 January global reinsurance renewal, its drivers, and the state of the global reinsurance sector. In his presentation, Mike discussed the outcome of the 01 January renewal and its implications for the (re)insurance sector in the context of pricing, capacity, and profitability. Major trends such as reserving, emerging risk, and macroeconomic factors, as well as potential future sector opportunities, were examined. To illustrate these trends, Mike referred to JLT Re's refreshed sector analysis as at year-end and this was exhibited in his presentation. Mike's presentation previewed the release of JLT Re's Renewal Retrospective Viewpoint, a copy of which will be made available with the podcast.

By the end of this lecture, members would have gained an insight into:

- The current state of the reinsurance market following renewals
- The ongoing trends which will affect the insurance and reinsurance markets in the near future
- Future opportunities in the sector for insurers, reinsurers and brokers.
